Subject: Copies of the agenda???

Do you want me to make copies of this agenda for everyone? I plan on bringing a sign-in sheet (to pass around the room – avoiding a line at the door), plus name tags.

Yolanda

Hello Everyone!

EPA is excited to host the Leviathan Mine Superfund Site Annual Technical Update meeting on January 26, 2017. This once a year meeting is a technical summary presentation of the year's site activities and a chance to discuss next steps and future plans. The Carson Water Subconservancy District (CWSD) has been kind enough to coordinate the meeting room. Atlantic Richfield's contractor AMEC Foster Wheeler is supplying afternoon snacks and supporting the Webinar. A very special thank you for their effort and support!
